Snow Blocks Road Travel

Travel on most major highways in Alberta was impossible today due to drifting snow blocking roads and the annual spring break by Highway Traffic Control Board.

All major roads and all main roads very heavy and side roads blocked.

Ice conditions prevailed on most highways.

The Edmonton to Calgary highway was said "passable" with drifts and snow still on the roads.

Highways leading to Barrehead, Athabasca, Camrose, St. Paul, Wainwright, Fort Macleod, Lethbridge, and Two Hills were reported as very heavy.

"That's just swell" was the general comment of the jurymen as they left the court house.

JURY PANEL HAPPY, THEY'RE DISCHARGED

There were 90 happy men at Edmonton's court house this morning.

They were members of the jury panel summoned for duty at the Spring assizes.

The cause of their happiness was their dismissal from further attendance at the assizes when it developed that not a single accused person elected for trial by jury.

"That's just swell" was the general comment of the jurymen as they left the court house.

Leduc Oil Field Tests

Exploratory tests are being carried out in the Leduc oil field to determine most efficient rates of production.

Members of the Petroleum and Natural Gas Conservation Board restricting production to 100 barrels daily from the 200 barrels and 150 barrels from the 300 barrels per day limit on April 21.

An order will be issued by the board before that time, which may continue the daily production rate set in the present order.

First board order came into effect on Dec. 15, 1947, and terminated Feb. 12.

Boys' Home Is Completed

Alterations and renovation of the south side home for boys has been completed, Mayor Harry Ainlay said today.

Cost of the changes was \$17,000 of which the province will bear 50 per cent.

Equipment placed in the home cost an additional \$5,000, Mayor Ainlay stated.

The new home provides, besides sleeping, dining and recreation accommodation for the boys, a suite for the manager, a maid and also one for a night watchman.

The Optimist Club is taking an interest in the new home and will endeavor to rehabilitate them.

In addition to assuming half the cost of structural alterations, the provincial government will pay a small percentage of operational costs.

QUEEN'S UNIVERSITY IS WELL REPRESENTED

Queen's University is strongly represented in the conspiracy to libel trials that opened in supreme criminal court here Monday.

Two of the defendants are graduates of the famed Kingston university.

George H. Steer, defending Dr. Charlotte Whitham and Dr. Whitham herself both were schooled at Queen's. So was Stanley McGuire, Edmonton lawyer, associated in the defense of Jack Kent Cooke, publisher of New Liberty Magazine, Toronto, and Harold Dingman, Ottawa staff writer.

Veterans and the Bureaucrats

Refusal of bureaucratic Mr. Turnbull in Ottawa to give letter carrier delivery to the 125 veterans' families in the Grieron Estate in Edmonton virtually deprives those men who fought for Canada of their full rights as citizens.

These 125 families live in an area developed under the Veterans Land Act by the federal authorities. They were placed there, within the limits of a modern city, by and with government sanction.

It is reasonable, then, that they should expect to take their place in this community with all the rights and privileges and services pertaining to Canadian citizenship and civilized urban life.

Letter carrier delivery, part of a system owned and paid for by the Canadian people, is one of the services which Canadian citizens in urban centres are entitled to.

Edmonton Postmaster General Turnbull withdraws letter service from the Grieron Estate for no reason but bureaucratic obstinacy. Not a single reason he has given for his refusal has sense or substance.

Similar areas in Edmonton and other cities have letter carrier delivery under conditions well-known to Mr. Turnbull.

Milk, bread, groceries, newspapers, utility bills and merchandise of all kinds are delivered in this district regularly without trouble or complaint.

Send Community Theatre East

The Edmonton Community Theatre for two consecutive seasons, is a high honor for the organization and the best kind of publicity for the city. Anything that gets the name of Edmonton before the Canadian people in a favorable way is good for Edmonton.

It requires not less than \$1,200 for this purpose and the only place it can fit is from the contributions of interested Edmonton people.

Ordinarily an organization of this kind would derive funds for such a trip from public performances given to home audiences. Lack of adequate auditorium facilities makes this impossible in Edmonton.

The only auditorium space available to the Community Theatre seems to not have 430 persons sufficient to make more than a few seats on each engagement.

Federal Building Needed Now

Edmonton's Mayor Ainalay should be vigorously supported in his protest to the Dominion government over the reported postponement of the erection of a federal building here.

This building has been in the news so often without materializing into definite plans with definite dates that it has come to be something of a myth.

If nothing more were involved than the moving of federal government offices from an old federal building to a new one, the city could have little complaint beyond that stemming from a natural desire for the improvement of the downtown business area.

But the entire question of office space in the centre of the city is involved. For federal offices are occupying, to an increasing extent, space which is required for private business.

Mayor Ainalay's protest over the delay is well taken and should be supported by every organization in the city.

Moves Are Seen In Western Union

Political, Economic Action Likely
Before the End of April

By Sylvain Mangot

LONDON, April 5.—(Reuters)—Major developments in every field of politics and economic collaboration between the western powers are expected before the end of April. The main diplomatic events will be:

1. The third plenary session of the executive of the European Economic Community, in Paris, to adopt terms of reference for a permanent organization, to administer the Marshall plan in Europe and to decide on the methods of bringing Western Germany formally into the European recovery plan alongside the 16 founder members.

2. The first meeting of the committee of the Western European union between Britain, France and the Benelux countries (Belgium, the Netherlands and Luxembourg), to transact practical terms the decisions taken in Brussels when the five-power alliance was signed on March 17.

3. The second meeting of the six western powers—the five partners of Western European union and the United States—to consider the exchange of views on future policy, and to take a decision in the light of the decisions taken by the 16 powers in Paris. This meeting is expected to be held in London this month.

The meeting date of the consultative council of Western Union depends on the convenience of the two governments.

It most probably will be held, obviously here, in the field of joint defence. It is realized that the efficacy of Western Union will depend largely on the degree of security which it is possible to guarantee to the members.

The six-power meeting on Germany is automatically dependent on the date of any U.S.-Dollar decision on currency control. European planning but will also be affected by developments in Berlin where the Allies are working on the quadrupartite control machinery of the Allied control council of

Welfare Study Started

It was at the end of World War I that the Royal Commission on Welfare began its study of welfare conditions in Alberta. That survey covered the whole field of social welfare and not merely the matter of Utopian made children about which this central trial.

1. The IDEC was denied the assistance of the Alberta government. Dr. W. H. MacLean, headed by a technical staff of authorities from outside the province, went ahead as best it could.

2. In the spring of 1947 a summary report of the IDEC welfare study was published. The Calgary Herald (among other papers) editorialized that the commission "invited" George Branscombe, who with his son John MacLean, returned Saturday night from a trip to

Total number of claims was up. While it was in session Dr. Whilton's complete report was published and New Library was begun. The commission "invited" Miss Diane and Misses Cope to Alberta to show why they should not be charged with contempt. Both declined to appear.

The story was brought up to date yesterday when Publisher Cope, who once played sashophone in a jazz band, peddled encyclopedias, The Criminal

Canadian Gift For Dieppe

DIEPPE, France, April 5.—(Reuters)—A Canadian gift of \$10,000 in Canadian friendship for the people of Dieppe, Normandy town where Canadian paratroopers, many killed in 1942, was manifested here Sunday with the official opening of a new X-ray clinic in Dieppe hospital. The equipment was donated entirely by Canadian summitters.

Equipment for the operating room, worth more than \$12,000, was obtained by the Canada-France Hospital Association, whose president Thomas Vien from surplus Canadian war property.

The equipment formerly was installed in one of several emergency hospital centres set up by the Canadian forces during the St. Lawrence river during the war but rarely used.

A visit to the Canadian military cemetery on the outskirts of Dieppe and a special luncheon formed part of the day-long ceremony.

It must be realized, however, that the trial in itself is the only thing that can be done to get the price of the ticket.

TWENTY-YEAR MYSTERY IN OPEN

"Poison Pen" Plague Hits Yorkshire Village

ROBIN HOODS BAY, York-

"The vicar is very dull but he
would have found out who is
writing the letters," said Mr.
John Dingley, and the Maccles-

The attack began before midnight and continued into the early morning hours.

Arab leaders said the attacking force was under Fawzi Bey Al Kaski, leader of the Arab volunteers.

Reynolds, the 20-year-old son of a prominent Jewish family, was shot through the head while he was trying to defend his home.

He died in a hospital in the neighboring town of Harodeton.

The attack, which started at 11 p.m. Saturday, was carried out by some 100 picked ploughmen from the SS Nazi Elite Guards who carried out the massacre.

After the massacre, Reynolds' body was recovered from the rubble of his home.

He was buried in the cemetery of the British Legion in Harodeton.

Reynolds' widow, Mrs. H. A. Saver, wife of the lay preacher at the church, said her husband had been more letters, adding to the collection of more than 2,000 received.

One of the latest letters was addressed to Mrs. H. A. Saver, wife of the lay preacher at the church, and the author of the England's north coast were too frightened to do anything about it. HALIFAX, April 5.—(CP)—A bill to provide for the reclamation of land in Nova Scotia and New Brunswick at a cost of \$100,000 is expected to receive royal assent before the end of the session.

Many bills introduced by the provincial governments, the federal government and land owners.

This morning as the trial began, Ottawa correspondents reported that a bill would shortly be introduced to protect publishers and their employees from answering libel charges outside of their own provinces.

"The Americans prefer auto strada, so do we. So we both lack brains."

The Irish sage made his comment in a personal letter which messenger George T. Clegg, chairman of the Marin County junior chamber of commerce's safety committee, had written to Shaw, telling him of failure to solve the motor vehicle accident problem.

SHOPPING GUIDE**Margarine Controversy
Interests Housewives**

By Bea Thrifty

Housewives waging the battle of the budget will be interested in the rumblings about release of margarine in Canada.

Controversy of margarine — to be or not to be in Canada — has been going on for some time. With austerity prices prevailing, most housewives would welcome its appearance on the market.

Little girls suffer from "spring fever" just like big sisters and mothers. Children's millinery departments are featuring fetching felt and straw toppers fashioned in hats and other models to match the hats of the skipping rope set ... selling for \$1.50 and up.

Book of the month is the seed catalogue. With the absence of fresh leafy vegetables and the disappearance of carrots and cabbage famine-householders are eagerly awaiting garden-time.

Saw a most interesting salad tong arrangement—made of plastic and selling for a mere 40¢. The plastic and wire tongs are attached to use as tongs and could be separated to toss the greens. Handy little item.

More plastic news in the form of a small tray which is brightly-colored and light as a feather—selling for \$1.95 per set.

New-type "food mill" on display in city stores is good for mashing or slicing potatoes and turnips. Price is 50¢. Use it to make sauce, palming bananas and a host of other things. Easy to manipulate, they sell for \$2.50.

DOROTHY DIX SAYS—

**Spirit of Compromise
Asset to Marriage**

A correspondent asks: "What makes a good husband and wives that we see about us, who cry out that marriage is a failure and throw up their hands and quit?"

Well, I would say they are the men and women who are good sports to stand by the bargains they made and make the best of them.

The naming and fretting and peevishness and complaining of the wife; the surlyness and grumpiness and the like of the husband who both are dissatisfied because the other is not something that he or she is not. The next step, possibly become, is at the bottom of nineteen-tenths of the domestic apparatus.

Back of every family quarrel is the lack of sympathy that enables a man to want his wife to do as he makes as she, and let it go at that."

They want all of the good qualities their husbands have, wives possess, and then some. A man wants a woman to be a good mother, plus all the beauty and allurement of the siren.

A woman wants a husband who is a go-getter and a money-maker, but she wants him to be, in addition, a good father and a good son. And because all these divergent qualities seldom meet in the same person we get the never-ending bickering and bewailing one's miseries in marriage, and swapping old husbands and wives for new ones and finding that when you get them home, that they likewise have their defects and don't come up to our ideals more than the ones we already had.

In reality, very few marriages would be failures if we brought any spiritualism to bear upon them. Most married women in love when they marry and have every intention of being good husbands and wives.

Most often they are good husbands and wives according to whom they are married except the impression made by the man's face when they meet what he has to give.

Innumerable women, for instance, have given up their very facial expression deeps permanently the lines they create. We all know the look of a good boot. If you wear them without oiling them, the impressions of daily wear are easily seen in deep cracks on the leather. On the other hand, if you keep the skin soft and smooth, the temporary facial expression deeps permanently the lines they create.

We all know the look of a good blouse. If you wear them without accepting them as they are and letting it go at that."

It is true that we cannot feed the face from the outside, except in the matter of hormones, which

Make faces at yourself in front of a mirror as Actress Karen Marsh is doing.

Why Grow Old?

By Josephine Lowman

If you will try facial exercises you will discover that you actually can improve your looks in a mild sort of way when you chew and talk and laugh. You will exercise your muscles and tighten up your face. When beginning facial exercises you should start with simple ones and gradually work up to ten times daily. You will find that you will take only about ten minutes each day or evening, and they will bring results.

The following exercise is a good one. Sit in front of a mirror. Open your mouth, one half wide. Take a deep breath and hold it, not closing them, and at the same time, try to bring your lips together. Hold it for five seconds.

Number of entries in the senior classes are a little less than last year, but entries in the fat cattle classes are more than doubled this year. Mr. Wilson said:

"Auction sale of purchased stock will commence at 10 a.m. on Wednesday, April 6, and the sale of surplus commercial cattle will start at 2:30 the same day and sale of purchased bulls and purebred cattle will be held Thursday, starting at 10 a.m."

Some of the best cattle from the herds of well-known stock breeders in northern Alberta will go on sale at the Edmonton spring livestock show opening Tuesday, April 6, indicating that the quality of the animals in the show will be high.

Among the breeders sending cattle to the sale are those who have won trophies in several other shows.

In the Hereford classes, entries have been received from Charles Kalin, Tolman, who has been a consistent winner of major ribbons in the Edmonton show for a number of years.

Also exhibiting in this breed are E. I. Clarke, Edmonton, past-president of the Edmonton exhibition, and a number of other well-known breeders. A number of new entries has also been received in this class this year.

In the Aberdeen-Angus group, such stalwarts among western Canada breeders as Roy Ballhorn, Wetaskiwin, and Robert A. W.

Biggs, South Edmonton, have entered animals in the 30 months and over class, the 30 and 38 months class and under 30 months class, and 18 and 18 months and under class.

SHORTHORNS

Are Marching Forward

Here is the Alberta story. The grand champion here last year, the Calgary Spring Show and Sale, Dalroy Cashier by Fairington Cashier (Imp.) was a Shorthorn. The grand champion at the 1947 Chicago International was a Shorthorn. Alberta-bred Shorthorns won awards at the 1947 Toronto Royal Winter Fair . . . Scores of Alberta-bred Shorthorn bulls were shown at the U.S. National Stock Show in that country . . . A 40 percent increase in breeders membership has been recorded in Alberta during the past three years . . . There are now 650 purebred Shorthorn breeders in Alberta.

World Grain Outlook Good But Caution Is Also Urged

WASHINGTON, April 5.—(AP)—Good world grain prospects were noted with optimism Sunday by the United Nations food and agriculture organization. But it slipped in a word of caution.

ANCHORAGE, Alaska, April 5.—(AP)—A price jump from \$1.50 a pound has today.

Civil aeronautics administrative officials issued this economic-information directive to employe Sunlight.

"Employees are expected to maintain a neat and sanitary appearance. Appearance rating will be raised over the extension of normal periods between haircuts to four weeks—or longer—if there is no interference in an employee's general efficiency."

For one thing FAO said, northern hemisphere grain production was up. In addition, grain stocks carried over will be extremely low, and livestock numbers will be under control, the organization said.

"The world still needs more than one good crop year to re-establish a reasonable state of food supplies in all areas."

Its report was issued on the eve of opening of a special FAO agricultural conference.

It said that the present state of winter grain crops in Europe, and 79 in summer.

North America and the Far East is generally good, with substantial increases in production.

This follows excellent grain harvests in Latin America and considerable optimism for the future," the report said.

Its observation was based on information available at the time.

Despite the brighter outlook, the summary noted that war-devastated countries in general are below pre-

war levels.

Puerto Rico has an average temper-

ature of 73 degrees in winter

Road Conditions Affecting Schools

HANNA, April 5.—The Hanna school board held a meeting last night to discuss the problem of getting pupils to attend for weeks because of road conditions.

Some parents were unable to get through and as an example several of the students of Wats High School have not been at school for more than eight weeks.

Parents explain that the condition of the roads is considerably worse than ever before from school lessons each student's chance of being passed into the next grade. It is the opinion of the board that the cost still has to be borne,

A FEW FACTS ON BALDNESS

Europe's Hair Situation In Quite "A Tangle"

WASHINGTON, April 5.—(AP)—The hair situation in Europe is at best a tangled affair, an association of physical anthropologists learned Sunday.

Premature baldness is high among the aristocrats in Great Britain, Sweden and Switzerland, reported Dr. R. E. G. Minkin, president of the International Congress Centre, Londonberry, Northern Ireland.

On the other hand, he related, premature baldness is rare in France, "the percentage falling from picardy and the Paris region to as low as five per cent."

For the paper was read for him by proxy.

"Now, about women," he said. "Women in Great Britain," he said, "are the most bald-headed, while their Scandinavian sisters are without a trace of hair on their hips."

He would venture his broad statement:

"It would appear from our work at present that Britain (exceptive) is the most bald-headed country in the world."

He said the English, however, may be spared by geography, since they would be crippled by imposition of the new rates and referred to the board's decision as "narrowly-based."

Boost in Rates Said Discouraging

KENTVILLE, N.S., April 5.—(CP)—J. Lester Macmillan, manager of the Nova Scotia Steamship Co. Ltd. here, told the board, said Saturday that the decision of the board of railway commissioners to boost freight rates 10 per cent was "very discouraging."

He said the Apalachian Railway geography would be crippled by imposition of the new rates and referred to the board's decision as "narrowly-based."

Committee Head

OTTAWA, April 5.—(CP)—Chief Justice J. C. McEwan of Toronto

HE'S PLANNING TO BE CANADA'S 1ST BULLFIGHTER

OTTAWA, April 5.—(CP)—A little and lanky Canadian, with his eyes closed, is planning Canada's first bull fight, will climb into a Mexico bull ring Sunday May 10.

Tommy Dillie, 25-year-old native of Val Teletze, Quebec, Ottawa, will match wits with the bull in the bullring at the Canadian Pacific Hotel, 1000 Main Road; 2025 11th Ave.

He said he had been thinking about it for a month.

"What's that?" inquired one reporter. "What's that? I didn't tell me a word about it."
